Disinfectants & Sanitizers

The Original Big Blu leak detector is used by OEM's and industry professionals worldwide. This is the only bubble solution capable of detecting gas leakage down to 0.65 ounces per year. Use on any gas including oxygen.

Big Blu	
P/N: RT100S	QUART
RT100G	GALLON
RT100D	55 GALLON DRUM
Temp Range	+32°F to 177°F
Sensitivity	0.65 oz per yr

Big Blu SubZero is the most durable product of its kind for leak detecting under extreme cold conditions. The temperature rating is down to -30°F. Bubbles will keep forming where other low temp products give out, freeze or become gelatinous.

Big Blu Subzero	
P/N: RT150S	QUART
RT150G	GALLON
RT150D	55 GALLON DRUM
Temp Range	-30°F to 202 °F
Sensitivity	0.79 oz per yr

Our original Big Blu Micro Leak Detector downsized into a Brush On applicator. This product is great for spot checking leak applications and is supplied with a 10 inch extension dauber.

Big Blu Brush On	
P/N: RT175B	8oz TELESCOPIC DAUBER
Temp Range	0°F to 185°F
Sensitivity	0.74 oz per yr

Registered for use in all food processing areas.

Nylog Red is an elastic fluid made from mineral oil. It is fully miscible and compatible with all mineral oil systems including ammonia, propane, CFC, and HCFC. Gaskets coated with Nylog will never dry or become heat fixed to the surface. Threaded connections coated with Nylog will block high-pressure leaks by forming a hydraulic seal. Nylog can be used as an assembly lube when installing shaft seals, O-rings, Schrader valves, ball valves, or other internal system components.

Nylog Red 2 Pack	
P/N: RT200RP	1 OZ (x2)
Temp Range	-30°F to 350°F
For Mineral Oil Systems	OEM Approved
Never Hardens or Dries	Does Not Clog Systems

Nylog Blue is an elastic fluid made from synthetic refrigeration-grade compressor oil. Nylog Blue is fully miscible and compatible with all refrigerants and oils. Gaskets coated with Nylog will never dry or become heat fixed to the surface. Threaded connections coated with Nylog will block high-pressure leaks by forming a hydraulic seal. Nylog can be used as an assembly lube when installing shaft seals, O-rings, Schrader valves, ball valves, or other internal system components.

Nylog Blue 2 Pack	
P/N: RT201BP	1 OZ (x2)
Temp Range	-35°F to 425°F
OEM Approved	For POE/PVE Oil Systems
Does Not Clog Systems	Never Hardens or Dries

Nylog White is a non-hardening and non-drying sealant used to prevent high-pressure leaks on threaded connections, gaskets, PEX, and O-rings. Using the newest and most advanced pipe dope sealant technology based on a custom blend of silicones and Teflon, this product is designed for use on compressed air, water, gas, steam, and glycol systems.

Nylog White Sealant	
P/N: RT202W	4 OZ
RT203W	8 OZ
Temp Range	For Air, Water, Gas, Steam, and Glycol

Registered for use in all food processing areas.

Viper Coil Cleaner is a potent degreasing compound that does not contain any hazardous ingredients or give off toxic fumes. Use it to clean small indoor kitchen equipment, condensers, and evaporator coils. The aerosol injector produces a pin spray of expanding foam that penetrates deep in between the coil fins. A self-rinsing agent sheds dirt and grease from the coil for a no-rinse finish.

Viper Coil Cleaner Aerosol

P/N: RT375A	18 OZ
Non-Corrosive	Non-Rinsing
No Odors	Aluminum/Micro Channel Safe

Nothing cleans or foams better than Viper Brite. This highly aggressive non-acid, alkaline coil brightener is recommended for use on heavily soiled coils that have not been cleaned in years. The alkaline effect strips hard oxidation from aluminum fins to restore the coil to a bright metallic shine. Please respect the power of this chemical and always wear full protective gear.

Viper Brite Coil Cleaner

P/N: RT300G	GALLON
RT300D	55 GALLON
Non-Acid	Biodegradable
High Foaming	EPA Compliant

Viper EVAP+ is the industry's only non-rinsing evaporator coil cleaner using enzymes in a high performing detergent base. Soils that resist conventional detergents are removed successfully with Viper EVAP+. The solution remains active for days with condensate production for continuous cleaning and complete odor elimination.

Viper Evap+ Evaporator Coil Cleaner

P/N: RT350G	GALLON
RT350D	55 GALLON
Non-Corrosive	Non-Rinsing
No Odors	Aluminum/Micro Channel Safe

Viper Heavy Duty is a concentrated version of our popular Viper aerosol product. Use Viper HD instead of a hazardous acid or alkaline cleaner for unbelievable performance. Viper HD is a multipurpose cleaner/degreaser that can be used to clean just about anything and is safe for all metals, plastics, and rubber. Apply it through our foam gun or in any type of high or low-pressure spray equipment.

Viper Heavy Duty Coil Cleaner

P/N: RT390G	GALLON
RT390D	55 GALLON
Non-Corrosive	Non-Rinsing
No Odors	Aluminum/Micro Channel Safe

Registered for use in all food processing areas.

Venom Pack All-Purpose is your go-to cleaner for just about anything. This product washes away bacteria, stubborn soils, heavily embedded cooking greases, and is extremely effective on everyday dirty surfaces. Use it in the shop, in the field, or at home. Our All-Purpose cleaner is non-toxic, eco-friendly and NSF registered for use on food equipment.

Venom Pack All-Purpose Cleaner

P/N: RT340V	36 OZ
Washes Away Bacteria	Spray and Wipe Formula
Non-Corrosive	Makes Up To 24 Quarts

Restore neglected and extremely dirty coils to their original performance with our pure concentrate, non-acid, high foaming coil brightener. This product's alkaline nature will strip coils of heavily embedded grease and grime, restoring the metal to a bright "like new" shine.

Venom Pack Brightener Cleaner

P/N: RT310V	33 OZ
Non-Acid	Biodegradable
High Foaming	Makes Up To 8 Gallons

Venom Pack Evaporator Cleaner is a non-rinsing pure concentrate liquid designed to remove stubborn grease, grime, and dirt while destroying odors caused by bacterial growth. The proprietary blend of enzymes digests odor-causing bacteria while the specialty detergents attack heavily embedded grease and grime to restore heat transfer.

Venom Pack Evaporator Cleaner

P/N: RT320V	36 OZ
Non-Corrosive	Makes Up To 9 Gallons
Non-Rinsing	Enzyme Cleaning Technology

Venom Pack Condenser Cleaner is a high-foaming pure concentrate liquid designed to tackle the toughest soils. The proprietary blend of specialty detergents will liquefy heavily embedded grease and grime to restore heat transfer and increase the efficiency of the coil.

Venom Pack Condenser Cleaner

P/N: RT330V	36 OZ
Non-Corrosive	Makes up to 9 gallons
Non-Hazardous	Aluminum/Micro Channel Safe

Registered for use in all food processing areas.

No Rinse* on Evaporators for condensers refer to website

This reusable heat-blocking putty keeps piping and sensitive components cooler than traditional wet rag applications during brazing, soldering, or welding. It is made from the same materials found in the heat shield of the space shuttle. This product is pre-hydrated, ready to use, non-staining, and cleans up easily. Simply apply, remove, and reuse.

Wetrag Reusable Heat Blocking Putty

P/N: RT400P	12 OZ
Ready to Use	Thermal Indicating Dye
Reusable 40+ Times	No Cancer-Causing Ingredients

Viper Wipes are ultra-strong dual-textured hand towels that will clean almost anything. Use to remove dirt, grease, oil, grime, tar, mastic, caulking, and more! Towels absorb soil leaving your hands clean. These convenient wipe-and-go towels are used by professional mechanics on the road, on the roof, and in the shop. No water rinse is required.

Viper Wipes Waterless Hand Wipes

P/N: RT600D	80 WIPES
Cleans Almost Anything	80 Heavy Duty Dual Textured Towels
Use on Hands, Equipment & Tools	Contains Aloe, Lanolin, and Vitamin E

Viper Pan and Drain Treatment is a unique gel that contains detergents, enzymes, and silicone. The detergents and enzymes will penetrate and break through the solid layers of slime, sludge, sediment, and remove odor-causing bacteria. The slow dissolving gel will outperform and outlast conventional tablets and strips that do not remove these common materials and allow new growth over time, causing restrictions and blockage.

Viper Pan & Drain Treatment

P/N: RT800S	QUART
RT800G	GALLON
Eliminates Odors	Enzyme Detergent Cleaning Technology
Non-Corrosive / Aluminum Safe	Non-Stick Silicone Surface Coating

Viper Heat Blocking Gel is used to prevent fire or heat damage when using an open flame around wood, drywall, fabric, and other components. It can also be used as a heat-dissipating gel when protecting sensitive components in low temperature soldering applications. For high temperature brazing, soldering or welding we recommend using our Viper Heat Blocking Putty and WetRag Heatshield.

Viper Heat Blocking Gel

P/N: RT410S	QUART
Non-Corrosive	Non-Staining Formula
Fire Protectant	Wipes Away With Ease

Viper Coil Coating is a permanent epoxy resin that we supply to factory OEM'S and coil manufacturers. It is the toughest and longest lasting coating you will ever use. It bonds to all metal surfaces and withstands temperatures to 400° F (205° C). The aerosol injector provides a flat spray pattern for reaching deep into the coil body.

Viper Coil Coating Aerosol

P/N: RT640A	12 OZ
OEM Approved	Permanent Epoxy Based Coating
One Time Application	No Heat Transfer Loss

Our Viper Ice Machine cleaner is formulated with an advanced blend of organic acids that will remove more scale faster than any other product of its kind. It is a stronger acidic cleaner and is lower in toxicity, non-fuming, less corrosive, and environmentally preferred over phosphoric acid-based chemicals.

Viper Nickel Safe Ice Machine Cleaner

P/N: RT500N	16 OZ
RT500G	GALLON
Removes More Scale	Safe on Nickel and Stainless Evaporators
4X Faster Acting Formula	No Sanitizing Required After Use

WetRag HeatShield is a revolutionary flame-resistant welding pad designed to prevent fires and protect sensitive components from heat transfer damage. It can be used wet or dry and protects wood, studs, walls, flooring, valves, painted surfaces, metal, pipe, and other components or surfaces from damage. WetRag HeatShield is machine washable and safe to dry.

Viper Wetrag Heatshield

P/N: RT420H	12" X 12"
Use Wet or Dry	Machine Washable
Reusable	Fire-Resistant Carbon Technology

Our Silicone Grease has hundreds of uses. It is a heat-dissipating and heat sink compound, as well as a water and moisture repellent for electrical devices and components. It has a high dielectric strength for safely lubricating electric devices. Commonly used as a protective coating to prevent corrosion on battery terminals, electrical connectors & damper motors.

Silicone Grease

P/N: RT910T	3 OZ
Food Grade	Heat Sink Compound
-40°F to 550°F	Moisture Repellent

Registered for use in all food processing areas.

Registered for use in all food processing areas.

Easy and convenient, just fill the container with full-strength coil cleaning concentrate. No mixing or pre-dilution is necessary. Simply connect to any garden hose, dial in a dilution ratio, aim, and fire.

Viper Foam Sprayer

P/N: RT300S	64 OZ
64 oz Reservoir	No Pre-mixing Required
High Foaming Output	5 Custom Dilution Settings

The Viper Pump Sprayer is a unique 2-in-1 device that is used for cleaning just about anything. It comes with 2 interchangeable adapters, a foam and jet spray nozzle that is great for pinpointing areas or spraying large surfaces with slow-dissolving foam.

Viper Pump Sprayer

P/N: RT301S	50 OZ
Locking Thumb Lever	2-in-1 Foaming or Non-Foaming Action
Compact Heavy-Duty Construction	Convenient Pressure Relief Valve

These universal tips fit most models of Foam Sprayers including the RT300S Viper Foam Sprayer. Simply remove and replace broken or lost tips with ease.

Viper Foam Sprayer Replacement Tips

P/N: RT302T	2 PACK
Convenient 2-pack	Universal Design
Fits Most Models	Durable Reinforced Plastic

For refillable convenience, our high-quality quart bottle and sprayer combo is available empty.

Empty Quart Bottle With Sprayer

P/N: RT1043	QUART
Durable Quart Bottle	High Output Quality Sprayer

A 1/2 OZ pump designed to fit in a standard gallon bottle. Use this pump to accurately portion disinfectant, cleaners, and other chemicals into our quart and foaming sprayers.

Gallon Pump

P/N: RT1015	1/2 OZ
1/2 oz Per Pump	Fits Standard Gallon Bottles

These EPA Registered products are used to disinfect and clean all surfaces and rooms that may contain harmful viruses, bacteria, and other health hazards. Great for any hard surface from the ceiling to the floor. Excellent for cleaning food contact surfaces and sanitizing restrooms. These disinfectants are included on the EPA list of disinfectants for use against COVID-19.

Strike Bac Disinfectant

P/N: RT01110	GALLON (Spearmint)
RT01131	GALLON (Lemon)
Use on any Hard Surface	EPA Approved for Covid-19
Makes 128 Quarts	Non-Corrosive / Non-Hazardous

Viper Hand Sanitizer is proven to kill 99.9% of viruses and bacteria that cause illnesses. This CDC-recommended formula contains 70% alcohol, aloe vera, and citrus scents leaving your hands clean, moisturized, and smelling good.

Viper Hand Sanitizer

P/N: RT8916	16 OZ
RT8989	GALLON
Dries without sticky residue	CDC Approved Covid-19 Formula
Pleasant Odor	Contains Aloe & Essential Oils

Venom Pack All-Purpose is your go-to cleaner for just about anything. This product washes away bacteria, stubborn soils, heavily embedded cooking greases, and is extremely effective on everyday dirty surfaces. Our All-Purpose cleaner is non-toxic, eco-friendly, and NSF-registered for use on food equipment. Safe for all metals including aluminum.

Venom Pack All-Purpose Cleaner

P/N: RT340V	36 OZ
Washes away Bacteria	Spray and Wipe Formula
Non-Corrosive	Makes up to 24 quarts

Registered for use in all food processing areas.

Registered for use in all food processing areas.
